CRYPTO STRIKERS
$MAMOT

REVOLUTIONIZING THE DEFI SPACE A TRANSPARENT AND ENGAGING TOKEN ECOSYSTEM.

WHITEPAPER VERSION AUGUST 2023
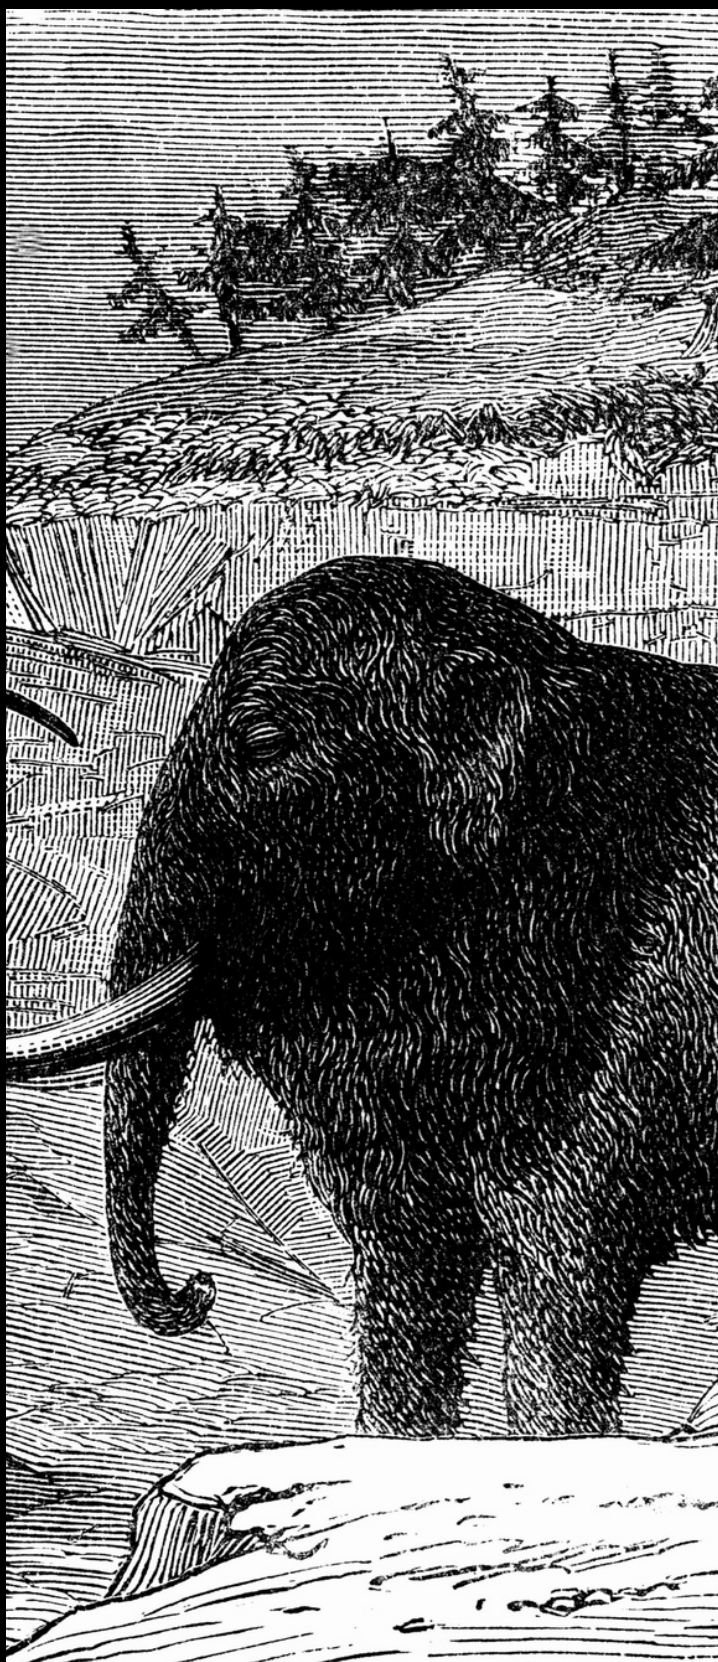

TABLE OF CONTENTS

EXECUTIVE SUMMARY

INTRODUCTION

The decentralized finance (DeFi) space is burgeoning with opportunities, yet it remains marred by opacity, limited stakeholder engagement, and systemic inefficiencies. Enter Crypto-Strikers: a revolutionary approach to addressing these challenges, ensuring a transparent, participatory, and vibrant ecosystem.

The Crypto-Strikers Difference

Our unique token ecosystem, the MAMOT token, emphasizes a community-first approach. With our sacrifice mechanism, innovative Dapp features, and an inclusive point system, we aim to foster a thriving community of dedicated stakeholders. This community, in turn, will actively contribute to the project's success, longevity, and sustainability.

ANTICIPATED IMPACT

Crypto-Strikers stands at the vanguard of DeFi innovation. With a strong anti-dump system, meticulous tokenomics, and a roadmap of avant-garde projects, we're poised to ensure our stakeholders harness the rewards of our future endeavors. Through our unique "sacrifice system", we've reconceptualized investment, ensuring that contribution equates to earnings.

Strategic Avenues

- **Brand Tokenization**: By tokenizing established brands like Rudwolf.com, we provide stakeholders unprecedented opportunities to gain stakes in global ventures.

- **Pioneering Projects**: Every 6 weeks, Crypto-Strikers is poised to unveil groundbreaking projects that will set new industry benchmarks. 7 total before enabling DAO take-over.

- **NFT Collection**: Introducing an exclusive realm where commitment meets art. Our NFT collection allows stakeholders to embed, showcase, and trade their points, presenting a novel way to engage with shares.

MISSION & VISION:

Mission:

At Crypto-Strikers, our mission is to foster a cohesive and engaged community that actively contributes to the growth of our blockchain ecosystem. We are dedicated to providing transparent and sustainable opportunities for individuals to participate, collaborate, and shape the future of decentralized finance.

Vision:

Our vision is to revolutionize the cryptocurrency landscape by creating an ecosystem where every participant has a stake in its success. We envision a community-driven platform that empowers individuals, encourages commitment, and sets new standards for meaningful engagement in the blockchain space.

Founders quote:

"For years, I've observed how crypto investors proudly label themselves as 'whales,' pretending to be like brothers, only to turn around and dump their holdings onto each other when they sense profit. This behavior has inspired me to develop a project with well-considered Tokenomics, eliminating the possibility of such dumps. The era of inter-community dumping is over! My goal is to unite genuine individuals in a community, where we stand strong together. In my entire time involved in crypto, I've only dumped once, and it's a decision I deeply regret. I find it hard to fathom how people can look at themselves in the mirror after betraying those they once called brothers.

Rather than calling significant investors 'whales,' let's recognize them as 'Mammoths' for their true size and impact. The project I'm working on is a government system that allows members to participate in voting and influence through a combination of tokens and NFTs, driven by a meaningful sacrifice system.

Sacrifice holds great significance for me; throughout my life, I've made sacrifices for my family, friends, and personal goals, especially for my kids and mother. Some of these choices I regret, while others make me proud. One of my favorite quotes reflects my belief that a man who selflessly devotes himself to his mother deserves to be rewarded with everything that earth has to offer.

I'm curious about you—do you value sacrifice and stand ready to make meaningful contributions for something you believe in?"

Founder / Rudolf Kotscharian

X @CRYTPOSTR1K3R

PROBLEMS & SOLUTIONS

PROBLEMS IN THE CURRENT DEFI LANDSCAPE.

- **Lack of Transparency**:
  - The DeFi sector is teeming with projects, but there's a palpable lack of clarity. Many projects do not provide clear details on their operations, tokenomics, or future plans, leading to skepticism and diminished trust from potential stakeholders.

- **Limited Stakeholder Engagement**:
  - Traditional DeFi projects often treat stakeholders as mere investors rather than as integral parts of the ecosystem. This leads to reduced community participation and lackluster project advancement.

- **Market Volatility**:
  - Sudden price swings, often due to "whales" dumping their holdings or market manipulation, pose significant risks to average investors.

- **Complexity & User Unfriendliness**:
  - Many platforms and tokens in the DeFi space are complicated for the average user, with unintuitive interfaces and complex mechanisms that deter widespread adoption.

- **Inadequate Reward Systems**:
  - Current reward mechanisms in many DeFi projects do not offer substantial incentives for long-term holding or community involvement, leading to short-term trading and reduced platform stability.

PROBLEMS & SOLUTIONS

CRYPTO-STRIKERS' SOLUTIONS

- **Emphasis on Transparency**:
  - Crypto-Strikers champions full disclosure. Every aspect of our project, from tokenomics to future plans, is shared transparently with the community.

- **Enhanced Stakeholder Engagement**:
  - Through our unique sacrifice mechanism, stakeholder participation is not just encouraged but is integral to the system. This fosters a sense of ownership and active involvement in the project's evolution.

- **Robust Anti-Dump System**:
  - Our innovative anti-dump mechanism curbs sudden price collapses, ensuring market stability and protecting investors from unpredictable market downturns.

- **User-Centric Approach**:
  - The Crypto-Strikers ecosystem, including the Dapp, is designed with user-friendliness in mind. This ensures that even those new to DeFi can navigate and benefit from our offerings.

- **Rewarding the Community**:
  - Beyond just token appreciation, we've set aside a substantial portion of our token supply for rewards. Our system rewards both short-term actions (like participating in token sales) and long-term commitments (like holding tokens until certain milestones are reached).

OUR APPROACH:

At Crypto-Strikers, we don't just identify problems; we innovate solutions. We're not just building a token; we're shaping a community-driven future in DeFi.

COMPETITION

Market Analysis

The DeFi sector has witnessed exponential growth over the past few years. With billions of dollars in total value locked (TVL) and countless projects emerging, the space has become fiercely competitive. While there are several tokens and platforms offering decentralized financial solutions, not all manage to strike the right balance between innovation, user-friendliness, and community engagement.

Crypto-Strikers' Competitive Advantage

Community-First Approach:
Unlike many DeFi projects that prioritize technical features, Crypto-Strikers emphasizes community involvement. Our sacrifice mechanism and point system engage and reward active participants, ensuring a thriving ecosystem.

Brand Tokenization:
By offering stakes in global brands like Rudwolf.com, we provide a unique investment opportunity, setting us apart from traditional DeFi offerings.

Anti-Dump Mechanism:
Our proprietary anti-dump system, which stabilizes token price and safeguards against market manipulation, is unmatched in the sector.

Innovative Dapp Features:
Crypto-Strikers' Dapp isn't just another platform interface. It's a hub for auto-sacrifice, point tracking, and seamless interaction with the token ecosystem, designed with user experience at its core.

Future-Ready Projects:
With a roadmap of pioneering projects set to unveil every six weeks, we remain at the cutting edge of DeFi innovation, always a step ahead of the competition.

Conclusion
While the DeFi market is populated with numerous players, Crypto-Strikers stands out due to its holistic approach to decentralized finance. We're not just another token in the sea; we're a movement, focused on revolutionizing the way stakeholders interact, invest, and benefit in the DeFi space.

MARKET VALIDATION & OPPORTUNITY

---
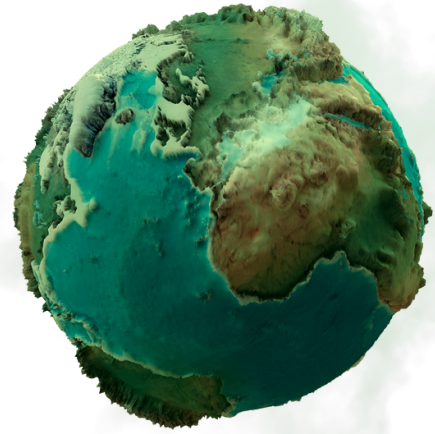

1   **UNDERSTANDING THE DEFI LANDSCAPE**

Decentralized finance, or DeFi, has taken the financial world by storm. With its promise of democratized access to financial services, transparent operations, and peer-to-peer transactions, it's evident that DeFi's rise is not a mere trend but a profound shift in how we approach finance.

---

2   **MARKET RESEARCH FINDINGS**

Growing Total Value Locked (TVL): The DeFi space has seen consistent growth in TVL, suggesting heightened trust and increased adoption of DeFi platforms by investors.

Mainstream Adoption: With leading financial institutions and tech giants exploring and integrating DeFi solutions, there's a clear trajectory towards mainstream adoption.

Demand for Transparency: Users are increasingly valuing platforms that offer clarity on their operations, tokenomics, and future plans.

User Experience Matters: Platforms that simplify the DeFi experience, making it more intuitive and user-friendly, are seeing higher retention rates.

Expanding DeFi Audience: As more individuals and institutions recognize DeFi's potential, Crypto-Strikers is poised to attract a diverse user base with its unique offerings.

Tokenization of Brands: With our trailblazing approach to brand tokenization, particularly with global brands like Rudwolf.com, we tap into a novel and underserved market niche.

Innovative Features as a USP: Our unique features, such as the anti-dump mechanism, automatic burn system, and community-centric approach, position us as pioneers in the space.

Education and Outreach: By demystifying DeFi and offering resources for both newcomers and seasoned investors, Crypto-Strikers can cement its place as a go-to platform.

Dapp as a Market Differentiator: With the introduction of our Dapp, we not only streamline user interaction with our ecosystem but also set new standards for how DeFi platforms should operate.

CONCLUSION

The market data validates the burgeoning demand for innovative, transparent, and user-friendly DeFi platforms. Crypto-Strikers, with its blend of pioneering features and community-driven approach, is well-placed to capture a significant market share and lead the next wave of DeFi evolution.

ECOSYSTEM & PRODUCTS

A Holistic Ecosystem for DeFi Enthusiasts

Crypto-Strikers isn't merely a token or a platform; it's a comprehensive ecosystem designed to provide stakeholders with unmatched DeFi experiences. Here, we delve into the components of our ecosystem and the revolutionary products we offer.

1. The $MAMOT Token

- **Purpose**: The heart of our ecosystem, the MAMOT token, serves as the primary medium for transactions, sacrificing, stakeholding, and rewards.
- **Tokenomics**: With a total supply of 55,000,000 MAMOT tokens and specific allocations for private sales, fair launch, and rewards, we ensure equitable distribution and utilization.

2. Crypto-Strikers Dapp

- **Functionality**: This Dapp is an innovative interface for auto-sacrifice, point tracking, and seamless interaction within the token ecosystem.
- **User Experience**: Designed with users in mind, the Dapp ensures intuitive navigation, quick transactions, and robust security.

4. Anti-Dump and Anti Red Wall Mechanisms

- **Stability:** These systems protect against price collapses and potential market manipulation, ensuring consistent token value and protecting stakeholder interests.

2. Community Engagement Tools

- **Sacrifice Mechanism:** Rewards token sacrifices, promoting community growth and stable token value.
- **Ecosystem Points:** Stakeholders earn points from sacrifices, dictating profit share and voting rights.
  - **Shareholding** Points: Earn 1 point per sacrificed token, influencing profit distribution.
  - **Voting Points:** 0.25 points per sacrificed token. Four tokens equal a full point. In private sales, each token grants a full point; in presale, 0.5 points.
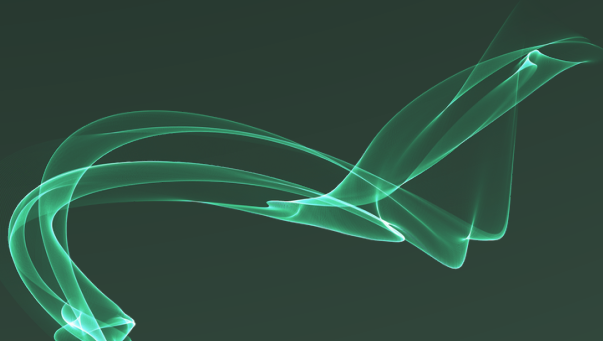

ECOSYSTEM & PRODUCTS

5. NFT Collection
- **Integration:** Stakeholders can embed their system points (or shares) directly into NFTs, providing a unique avenue for interaction and trade.
- **Future Opportunities:** As the NFT market continues to grow, Crypto-Strikers stakeholders stand to benefit from exclusive offerings and opportunities. 70% of this revenue distribution will go to token holders.

6. Future-Ready Initiatives
- **Innovation Pipeline**: With a series of groundbreaking projects set to launch every six weeks, we are always pushing the boundaries of what's possible in DeFi.
- **DAO Transition**: As our ecosystem evolves, we plan to transition to a DAO model, granting token-sacrificing stakeholders enhanced decision-making power and ensuring true decentralization.

CONCLUSION

The Crypto-Strikers ecosystem is meticulously designed to blend innovation with user experience. Each product, feature, and initiative is rooted in our vision to democratize finance, reward community involvement, and set new industry standards. As stakeholders navigate our ecosystem, they're not just interacting with a platform; they're shaping the future of decentralized finance.

REVENUE MODEL

Sustained Financial Health Through Diverse Streams

For a DeFi project to thrive and ensure consistent value for its stakeholders, a clear and robust revenue model is imperative. Here, we outline the multi-faceted revenue streams that drive Crypto-Strikers, ensuring both project sustainability and stakeholder profit.

1. Transaction Fees
- **Buy Tax (Before 1.7b mc): 5%**
  - 1% auto sacrifice
  - 2% distributed to shareholders
  - 2% allocated for Development & Marketing
- **Sell Tax (Before 1.7b mc): 8%**
  - 4% distributed to shareholders
  - 4% allocated for Development & Marketing

Upon reaching 1.7 billion market cap, taxes will be permanently revised as:

- **Buy Tax: 2%**
  - 1% for Marketing
  - 1% distributed to shareholders
- **Sell Tax: 2%**
  - 1% for Marketing
  - 1% distributed to shareholders

2. NFT Collection
- **Minting Fees**: As stakeholders mint exclusive NFTs, a portion of the associated fees is redirected to our revenue pool.
- **Trading Commissions**: When our exclusive NFTs are traded on the market, Crypto-Strikers benefits from transaction commissions, driving further revenue.

3. Future DeFi Project Launches
- **Initiative Participation**: The launch of every innovative project every six weeks provides opportunities for token sales, partnerships, and integrations, all contributing to revenue.
- **Cross-Platform Fees**: Integrations with future projects could generate fees when Crypto-Strikers tokens are utilized or exchanged.

4. Ecosystem Dapp
- **Service Fees**: The Crypto-Strikers Dapp, beyond facilitating user interaction, could host premium features or services, availed for a fee, thereby contributing to our revenue stream.

5. Partnerships & Collaborations
- **Integration Fees**: Strategic partnerships with other platforms or services might entail integration fees or shared profits, further diversifying our revenue sources.

REVENUE MODEL

ALLOCATION OF REVENUE
Ensuring financial prudence, we allocate our revenue judiciously:

- Development: 35%
- Marketing: 25%
- Operations: 15%
- Exchange Listings: 15%
- Cash Reserve: 5%
- Legal: 5%

CONCLUSION

Crypto-Strikers' revenue model is not just about financial gain; it's about building a sustainable, community-centric ecosystem that rewards its stakeholders while constantly evolving. Through diverse revenue streams and prudent allocation, we ensure that the project thrives, stakeholders prosper, and the DeFi space witnesses continuous innovation.

TOKEN UTILITY

Maximizing $MAMOT's Potential Across DeFi Landscapes

In the vast universe of tokens, what sets $MAMOT apart is its unique utility. Beyond mere transactions, it's designed to be an integral part of the Crypto-Strikers ecosystem and the broader DeFi community.

1. Governance and Decision-Making
Voting Rights: $MAMOT holders earn voting points through the sacrifice system, enabling them to participate actively in project direction, strategy, and key decisions.

2. Staking and Rewards
Sacrifice Mechanism: By sacrificing their tokens, users can earn ecosystem points, which directly translate to profit sharing.
Reward Treasury Pool: A significant portion of tokens is reserved for rewarding participants, ensuring a thriving, engaged, and rewarded community.

3. Access to Exclusive Offerings
NFT Collection: Only those who've committed tokens can mint in the exclusive NFT realm, adding an element of exclusivity and unique value.
Future Projects: Stakeholders stand to gain early access or special benefits from the various innovative projects launched under the Crypto-Strikers banner.

4. Anti-Dump and Price Stability Mechanisms
Market Protection: Holding $MAMOT isn't just about benefits; it's also about security. The Anti-Dump mechanism offers protection against drastic price drops, ensuring stability.

5. Enhanced Community Engagement
Ecosystem Points System: Engagement is rewarded, as holders earn both shareholding and voting points based on token sacrifices, driving active community involvement.

6. Integration with Crypto-Strikers Dapp
Functionality: $MAMOT seamlessly integrates with the Dapp, facilitating easy transactions, sacrifices, and interaction.

Conclusion
The utility of the $MAMOT token isn't confined to mere buying and selling; it's an instrument of engagement, governance, reward, and community building. Every facet of its utility is crafted to ensure that stakeholders don't just own a token—they're part of a revolution in decentralized finance.

TOKEN ECONOMY

UNDERSTANDING $MAMOT'S PLACE IN THE ECOSYSTEM

A token's value is derived not just from its scarcity or utility, but also from its role within a larger, interconnected ecosystem. Here we explore the broader economic context of $MAMOT.

1. Supply & Demand Dynamics

- **Limited Supply**: With a capped total of 55,000,000 MAMOT tokens, scarcity is inherent. This limited availability, combined with increasing utility and demand, underpins its value proposition.

- **Diverse Demand Streams**: From governance voting to NFT minting and rewards, diverse avenues generate consistent demand for $MAMOT.

2. Economic Stimulus through Sacrifice

- **Value Through Commitment**: The sacrifice mechanism inherently boosts $MAMOT's economy. By locking away tokens, the active supply shrinks, creating upward pressure on the token's value.

- **Reward Reinvestment**: Rewards from the treasury pool often find their way back into the ecosystem, either through reinvestment or increased platform activity, stimulating the economy.

3. Strategic Token Allocation

- **Project Diversification:** By setting aside specific percentages for different aspects, such as Private Sale, Fair Launch, and VIP Founder Allocations, the distribution ensures varied and healthy economic stimuli across the ecosystem.

4. Integration with Broader DeFi Space
- **Collaborative Potential:** $MAMOT's integration into wider DeFi projects ensures that its economy is not insular but connected to the broader market trends and opportunities.

TOKEN ECONOMY

5. Stable Growth Mechanisms

- **Anti-Dump System**: By safeguarding against drastic price collapses, this mechanism promotes sustained, stable growth rather than volatile spikes.

- **Anti Red Wall Mechanism**: Preventing small-scale transaction manipulations further ensures economic stability and gradual growth.

6. Future-Proofing via Expansion

- **Groundbreaking Projects**: With plans to introduce innovative projects every 6 weeks, $MAMOT is poised for consistent rejuvenation, ensuring it remains economically relevant and robust.
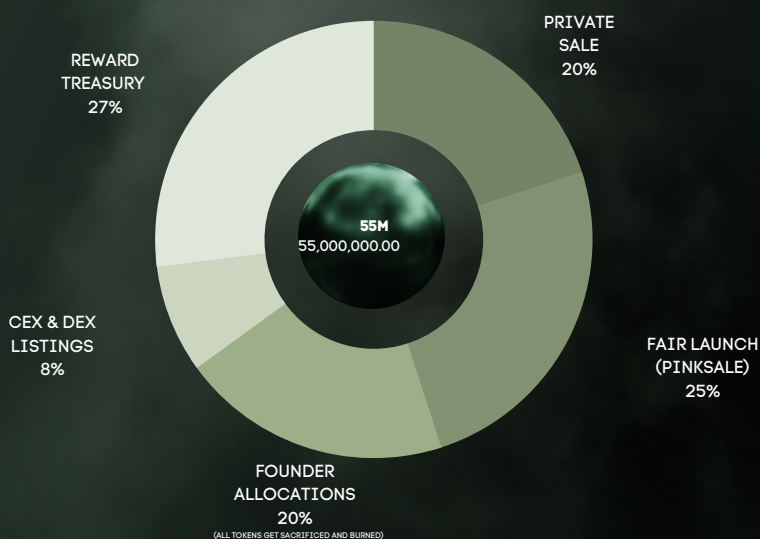

CONCLUSION

The economy of $MAMOT isn't a static entity; it's a dynamic, responsive, and interconnected system designed for resilience, growth, and adaptability. As the DeFi landscape evolves, the $MAMOT economy is well-positioned to adapt, grow, and thrive, ensuring lasting value for its stakeholders.

TOKENOMICS

THE SCIENCE BEHIND $MAMOT'S DISTRIBUTION AND CIRCULATION

The essence of a token's success often lies in its tokenomics: the design and structure of its distribution, allocation, and management. Here, we delve deep into $MAMOT's tokenomics to understand its intended economic flow.

TOKEN ALLOCATION

Total Supply

- **Finite Boundaries**: With a definitive cap at 55,000,000 MAMOT tokens, we've ensured scarcity while avoiding saturation.
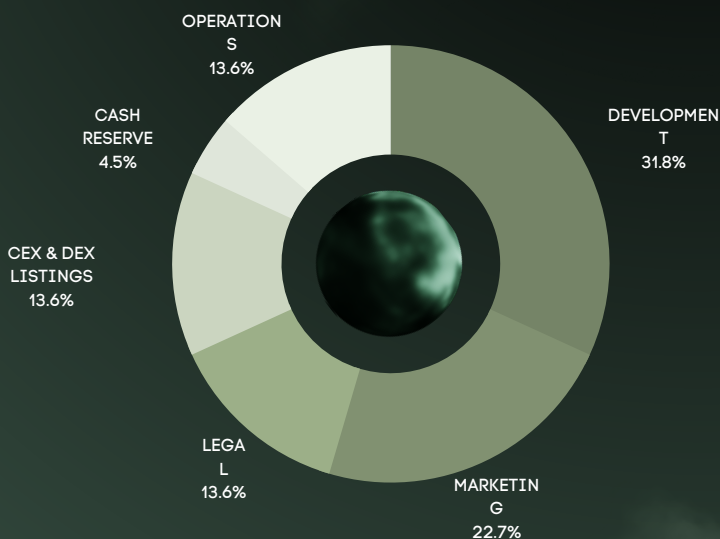

Distribution

- **Private Sale**: Allocating 20% of the total supply for private sale ensures early investors get a substantial stake, fostering trust and commitment from the start.
  - **Liquidity**: 51% or 5,610,000 tokens
  - **Distribution**: 49% or 5,390,000 tokens
- **Fair Launch**: 25% or 13,750,000 MAMOT tokens, available during the Pinksale, allows a wider community to participate and benefit from the project's potential.

Reservations

- **Founder and VIP Founder Allocations**: 20% or 13,750,000 MAMOT tokens, kept aside for project contributors, incentivizes long-term dedication and alignment with project goals.
- **CEX and DEX Listings**: 8% or 4,400,000 MAMOT tokens are earmarked for these crucial exchanges, ensuring liquidity and market presence.
- **Reward Treasury Pool**: 27% or 14,850,000 MAMOT tokens, ensuring a consistent reward mechanism to keep the community engaged and committed.

- **Marketing (25%)**: To keep spreading the word and expanding the community.
- **Operations (15%)**: Ensuring smooth daily runnings.
- **Exchange Listings (15%)**: For better market reach and liquidity.
- **Cash Reserve (5%)**: A safety net for unexpected expenses.
- **Legal (5%)**: Compliance and navigating the complex crypto legal landscape.

RAISE (TOKEN)

**THE STRATEGY BEHIND $MAMOT'S
FUNDRAISING DYNAMICS**

Raising funds in the DeFi space requires a meticulous strategy, balancing investor interest, market conditions, and the project's financial needs. This section dives into the mechanisms and structures of $MAMOT's token-based fundraising.

---

1   **HARD CAP AND SOFT CAP**

Hard Cap: Set at 55 ETH, this denotes the maximum amount of Ethereum that will be raised during the private sale phase. It represents our ambition and the scale at which we see the project growing.

Soft Cap: Set at 30 ETH, the soft cap is our minimum requirement for project viability. It is our assurance to early backers about our commitment to moving forward even with leaner resources.

---

2   **PURCHASE LIMITS**

Minimum Purchase: 0.3 ETH – An accessible entry point for a diverse group of investors, ensuring no one is left out.

Maximum Purchase: 3.0 ETH – A cap to ensure decentralization and to avoid over-concentration of tokens in the hands of a few.

---

3   **BONUS STRUCTURE**

Generous Incentives: Early believers in our vision get a 45% bonus on their purchase. This strategy strengthens the bond with our initial community, providing them with extra tokens as a token of appreciation.

4 DISTRIBUTION METHOD

Airdrop Methodology: 100% of the tokens purchased will be distributed via airdrop, simplifying the distribution process and ensuring timely delivery.

Bonus Token Sacrifice: The 45% bonus will be automatically sacrificed, promoting a healthier circulation of the token and avoiding inflationary pressures.

5 USE OF FUNDS RAISED

Our commitment is to use the raised funds judiciously:

Liquidity Provision: A significant portion (51% from the Fair Launch) will be locked to provide liquidity, ensuring stable trading conditions and reducing price volatility.

Project Development & Expansion: Funds will also be directed towards the introduction of groundbreaking projects, platform improvements, and future innovations.

CONCLUSION

Our token raise strategy is designed with transparency, equity, and long-term vision in mind. By creating a win-win situation for both investors and the project, we aim to build a solid foundation that will support the growth and expansion of the Crypto-Strikers ecosystem for years to come.

ACKNOWLEDGMENTS & FINAL THOUGHTS

As we conclude this white paper, we would like to express our profound gratitude to everyone who has been a part of this ambitious journey. Your faith, trust, and unwavering support have been the cornerstone of our drive to redefine the DeFi space.

Acknowledgments:

- **Early Supporters**: To all the visionaries who believed in us during the inception phase, your early trust provided the momentum needed to push forward.

- **Community Members**: The backbone of our project. Your daily involvement, feedback, and passion fuel our commitment to excellence.

- **Team**: Our incredibly talented and dedicated team, from developers to marketers, every individual has poured their expertise and heart into Crypto-Strikers.

- **Partners and Advisors**: For their invaluable insights, guidance, and networks that have been instrumental in navigating the intricate crypto landscape.

Final Thoughts:

The road ahead is exciting. With the foundations firmly in place, we are poised to bring transformational change to the DeFi sector. The $MAMOT ecosystem, with its unique offerings and features, is just the beginning.

We envision a future where decentralized finance is not just an alternative but the primary way people manage and invest their resources. With your continued support, we aim to make Crypto-Strikers a beacon of innovation, transparency, and community-driven success.

We invite you to join us on this thrilling adventure, as we shape the future of finance together.
